

Help fight for CSUSM funding!

*Please join us in supporting the
California Higher Education Fund Act (AB 656)!*

- The **California Higher Education Fund Act (AB 656)** provides the CSU, the UC and California community colleges with a dedicated funding source.
- **AB 656 creates the California Higher Education Fund** to receive revenues from a 9.9 percent tax placed on oil and natural gas extracted in California. California – the nation’s third largest producer of oil – is the only oil-producing state in the nation that does not have an on-going severance tax. **Money from the fund would be allocated to the CSU, the UC and California community colleges.**

**I add my name in support of AB 656
to save Higher Education in California:**
